Study Abroad in South Korea through Yeungjin Scholarship Program 2013
Industry-College cooperation project

“Learn at Yeungjin and get a job at global companies (Kia Motors, Samsung Electronics, etc.)”

Begins in August, 2013
Study 3 semesters (one year and 6 months) at Yeungjin and acquire a degree
Employed after the program at the following companies: Kia Motors in Slovakia, Samsung Electronics in Slovakia and LG Electronics in Poland, Heesung Electronics in Poland, their affiliates.

Who can apply?
Anyone in any major including humanities and engineering (Mechanical Engineering students are preferred)
- University graduates or graduates-to-be (undergraduate students who finished at least 2nd year can still apply as well. For those undergraduates, job placement is not guaranteed because of the lack of Bachelor’s degree. However, when they apply for global Korean companies mentioned above during its open recruitment after they obtain their degree, they will have advantages.)
- Sincere, positive and adaptable attitude with intercommunicative skills, respect for other culture and good personality. Willingness to explore Korean culture and desire to work in Korean global companies.

What Benefits?
- Scholarship of 900,000 Korean won per month (approximately 630 Euro)
- Volunteer activities in English club as an English facilitator (Students should be willing to volunteer)
- After graduation, provided job interview without document screening and entrance exam
* Scholarship student’s volunteer activities: helping Korean students with English skills in English Zone or serving as a guide at English Village (20~30 hours per week) [For more info, please refer to the program details.]
