

This project has received funding from the European Union's Horizon 2020 research and innovation programmes under grant agreement

SKILLFUL SKILLS AND COMPETENCES DEVELOPMENT OF FUTURE TRANSPORTATION PROFESSIONALS AT ALL LEVELS

SKILLFUL SOLUTION:

- 1 To critically review the existing, emerging and future knowledge and skills requirements of workers at all levels in the transportation sector, with emphasis on competences required by important game changers and paradigm shifters (such as electrification and greening of transport, automation, MaaS, etc.);
- 2 To structure the key specifications and components of the curricula and training courses that will be needed to meet these competence requirements optimally, with emphasis on multidisciplinary education and training programmes;
- 3 To identify and propose new business roles in the education and training chain in order to achieve European wide competence development and take-up in a sustainable way.
